**Subject: Resolution for Relief - Woolsey Fire Loss/Rebuild Customers**

Dear Customer:

At the Board Meeting on June 11<sup>th</sup>, 2019, the Board of Directors of Las Virgenes Municipal Water District approved a Resolution for Relief for current water service customers impacted as a result of the Woolsey Fire.

**What the resolution provides:** A substantial credit towards fees when eligible customers are required to upgrade from a ¾" meter to a 1" meter in order to meet updated building codes. The fees for this upgrade would normally cost \$10,750 (without a regulator) or \$10,996 (with a regulator). With this resolution, most eligible customers will only be required to pay applicable current meter, administration and installation charges pursuant to Section 3-2.205 of the Las Virgenes Municipal Water District Code at a total cost of \$756 (without a regulator) or \$1,002 (with a regulator). This cost only applies towards meeting building code upgrades to a 1" meter from a ¾" meter. Quoted rates are effective July 1, 2019. Additional fees may be required, depending on individual circumstances.

**Qualifying Conditions:**

- a. One- or two-family dwellings or townhomes destroyed or rendered uninhabitable; and
- b. Replacement dwelling is no more than 5% larger, as measured by square footage, and without the addition of accessory units or outbuildings (need building plans to be approved by the Building Department and original square footage from the County Assessor); and
- c. Customer to provide insurance declaration page showing homeowners coverage for building code upgrades; provide estimated cost of building code upgrades by a licensed contractor; and illustrate insufficient insurance coverage.
- d. The credit shall be available upon request by an eligible customer through December 31, 2021. Customers who have already paid the subject fees after November 8, 2018, and who meet the requirements will be refunded the appropriate amounts.

**Note:** The fees for any subsequent upgrade to the meter shall be figured with credit provided for a 3/4-inch meter rather than the larger 1-inch meter.

If you have any questions, you can contact me at 818-251-2100.

Sincerely,

Joanne Bodenhamer  
Planning & New Development Technician
